Over a hundred verses are cycled through our teachers' and students' minds every three years. Each year the verses include faith, baptism, the importance of scripture, children's responsibilities to parents, the nature of Jesus and God, love, temptation, walking with God, and encouragement to think Christ-like.

It is expected by the administration that teachers will give a memory verse test every Friday over the assigned verse(s) of that week. Teachers are to decide for their class how they will test. Teachers are also encouraged to not be limited to only these assigned verses.
